ComputerCut®

Autos and More!

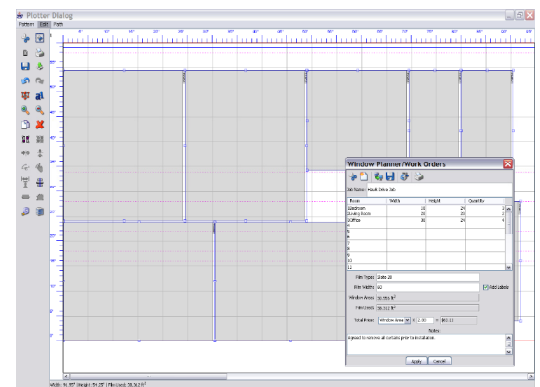

ComputerCut Users Experience These Automotive Profit-Generating Features!

- Internet-based access system – no time-consuming upgrades or downloads – patterns added daily
- Auto Window Tinting Database – optimized to reduce film waste and increase productivity
- Complete pattern customization capabilities
- Clearshield Paint Protection Database for autos and RV
- Text input and import functions for custom graphic and designs
- User Member page filled with ComputerCut support, info, and catalog creating features.
- Custom rear film loader and film delivery system – eliminates film tracking issues
- Complete blade offering for window films, paint protection, vinyl, flat glass films and more
- Free upgrades!

New Flat Glass Window Planner and Optimizer

- Automatically arranges flat glass job to minimize film use and maximize efficiency
- Automatically calculates the window area and amount of film used on the job... makes quoting a job easier
- New Version 6.0 allows for a “print out” option of the window plan and ties directly into the ComputerCut invoice/work order function for customer quotes. Exporting and saving quotes for future reference.

Graphics Capabilities

- Smart Design Database for glass artwork and designs at the click of your mouse
- Use of ComputerCut on-staff graphic designer for custom work and design needs
- Provide your customers with complete in-house design capabilities – no more having to pay high priced graphic artist fees

New Window Film ReWinder

- Attaches to existing ComputerCut plotters and allow large jobs, auto or flat, to be rewound onto empty film cores for ease of transportation to the work site. No more onsite cutting. Just prep, clean, peel and install.

New Six Roll Film Revolver

- Allows for six rolls of film for easy change of rolls to increase productivity
